### **DETAILED ACTION**

The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to explicitly disclose alone or in combination a ratio of fiber size to binder particulate size of the epoxy is between approximately 25 and 50 and examiner found no motivation to combine the prior art references that would construe a prima facie case of obviousness for the fiber size to binder particulate size of the epoxy is between approximately 25 and 50. Thus, claims 4-5, 7, 18-20 are allowed by virtue of dependency to claims 1 and 15.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
